

## RocketGate & RocketPay Information

Last Modified on 04/01/2023 6:46 pm EDT

**RocketGate is MV's main payment processor.** They offer a feature at checkout when paying with a credit card called **RocketPay** which saves your checkout information for ease of use on future purchases. For information on how to edit your RocketPay details, you can visit <https://rocketpay.net/faqs>.

*Please note,* RocketGate is a PCI tier 1 compliant payment gateway. This means they securely and safely store cardholder data (once you have made a purchase). They are approved by Visa, MasterCard and other card brands to provide services to cardholders.

**If you wish to have your information removed from RocketPay completely,** please contact MV Support via [help@manyvids.com](mailto:help@manyvids.com) with your request and we will ask that RocketGate remove your details.
