To access vids that are included in your Vid Bundle purchase:

1. Click the drop-down menu
2. Select **Purchase History**
3. Click All Purchases > Memberships

Alternatively, you can also visit the Creator's profile. All vids that are included in the Vid Bundle will be available for either streaming or download from there.

If you are having any trouble accessing your purchased Vid Bundle, please feel free to reach out to us ahelp@manyvids.com and we'll be happy to assist!
